# ANTHONY GERDES

Castle Rock, CO | 720-815-5494 | AnthonyGerdes@proton.me | linkedin.com/in/anthonygerdes

## PROFESSIONAL SUMMARY

Detail-oriented IT professional with 2+ years of enterprise network support and infrastructure experience in a higher-education environment. Will hold a B.S. in Computer Science / Cybersecurity (GPA 3.65) and a Cisco Networking Technician certification, with practical exposure to network configuration, connectivity troubleshooting, device deployment, and technical documentation. Experienced in analyzing system issues, escalating with root cause context, and translating business needs into actionable technical recommendations. Effective communicator across technical and non-technical teams; strong analytical and problem-solving skills developed in a production IT environment. Authorized to work in the U.S. without sponsorship.

## EDUCATION

**Colorado State University – Pueblo** December 2026

Bachelor of Science – Computer Science / Cybersecurity | GPA: 3.65
NSA-Designated Institution Certificate in Cyber Security Defense

Relevant coursework: Network Architecture, Data Communications, Cybersecurity Principles, Systems Administration, Scripting & Automation

**Arapahoe Community College** May 2025

Associate of Science – Cybersecurity | Associate of Science – General Networking | GPA: 3.26

**Cisco – Computer Networking Technician Certification** May 2022

## RELEVANT EXPERIENCE

**IT Work Study Technician – Arapahoe Community College** Aug 2021 – Jan 2024

- Assisted in the documentation and implementation of voice and data network configurations across a multi-building campus environment; maintained accurate records of network hardware, site locations, and system configurations.
- Diagnosed and resolved network connectivity incidents across LAN infrastructure; performed root cause analysis, documented findings, and escalated complex issues to Level III network staff with complete diagnostic data.
- Identified current conditions across the campus network, assessed business impact of recurring issues, and provided recommendations to improve reliability and reduce repeat incidents — supporting network capacity and performance goals.
- Configured and maintained network-connected hardware including switches, wireless access points, printers, and A/V systems; performed installation, configuration, and basic troubleshooting of network equipment.
- Participated in campus-wide infrastructure deployments and technology upgrades; supported multi-site rollouts and coordinated with cross-functional IT teams throughout planning, execution, and post-deployment validation.
- Administered user accounts and identity configurations via Active Directory; managed access provisioning and system configuration changes in alignment with institutional policy.
- Monitored ticket queues and tracked system incidents using JIRA and HappyFox; maintained meticulous documentation of resolutions and system actions to support operational continuity.
- Communicated technical analysis and recommendations to non-technical staff and management; delivered training on network-connected systems and enterprise applications to diverse user groups.

## TECHNICAL SKILLS

**Networking & Infrastructure**

- Cisco Routing & Switching
- TCP/IP, DNS, DHCP
- VLANs, WLANs, LAN/WAN

**Systems & Tools**

- Windows, macOS, Chrome OS, iOS
- Active Directory & Identity Mgmt

**Professional Skills**

- Network Documentation
- Root Cause Analysis
- Infrastructure Deployment

- Network Hardware Config & Install
- Connectivity Troubleshooting
- M365 & Google Workspace
- Remote Support (TeamViewer, AnyDesk)
- JIRA & HappyFox (ITSM)
- Cross-team Communication
- Technical Writing & SOPs

## CERTIFICATIONS

- Cisco Computer Networking Technician Certification (May 2022)
- Cisco Networking Associate & Cybersecurity Training (May 2022)
- NSA-Designated Institution Certificate in Cyber Security Defense (December 2026)
